

# Meeting #3 on Rio del Jardin de las Flores

Sunday 9/29/19 4pm

## I. Update on water levels

- Nancy & Craig Horton
- Erika

## II. Reports/Understanding the root of the lack of water in our stream bed

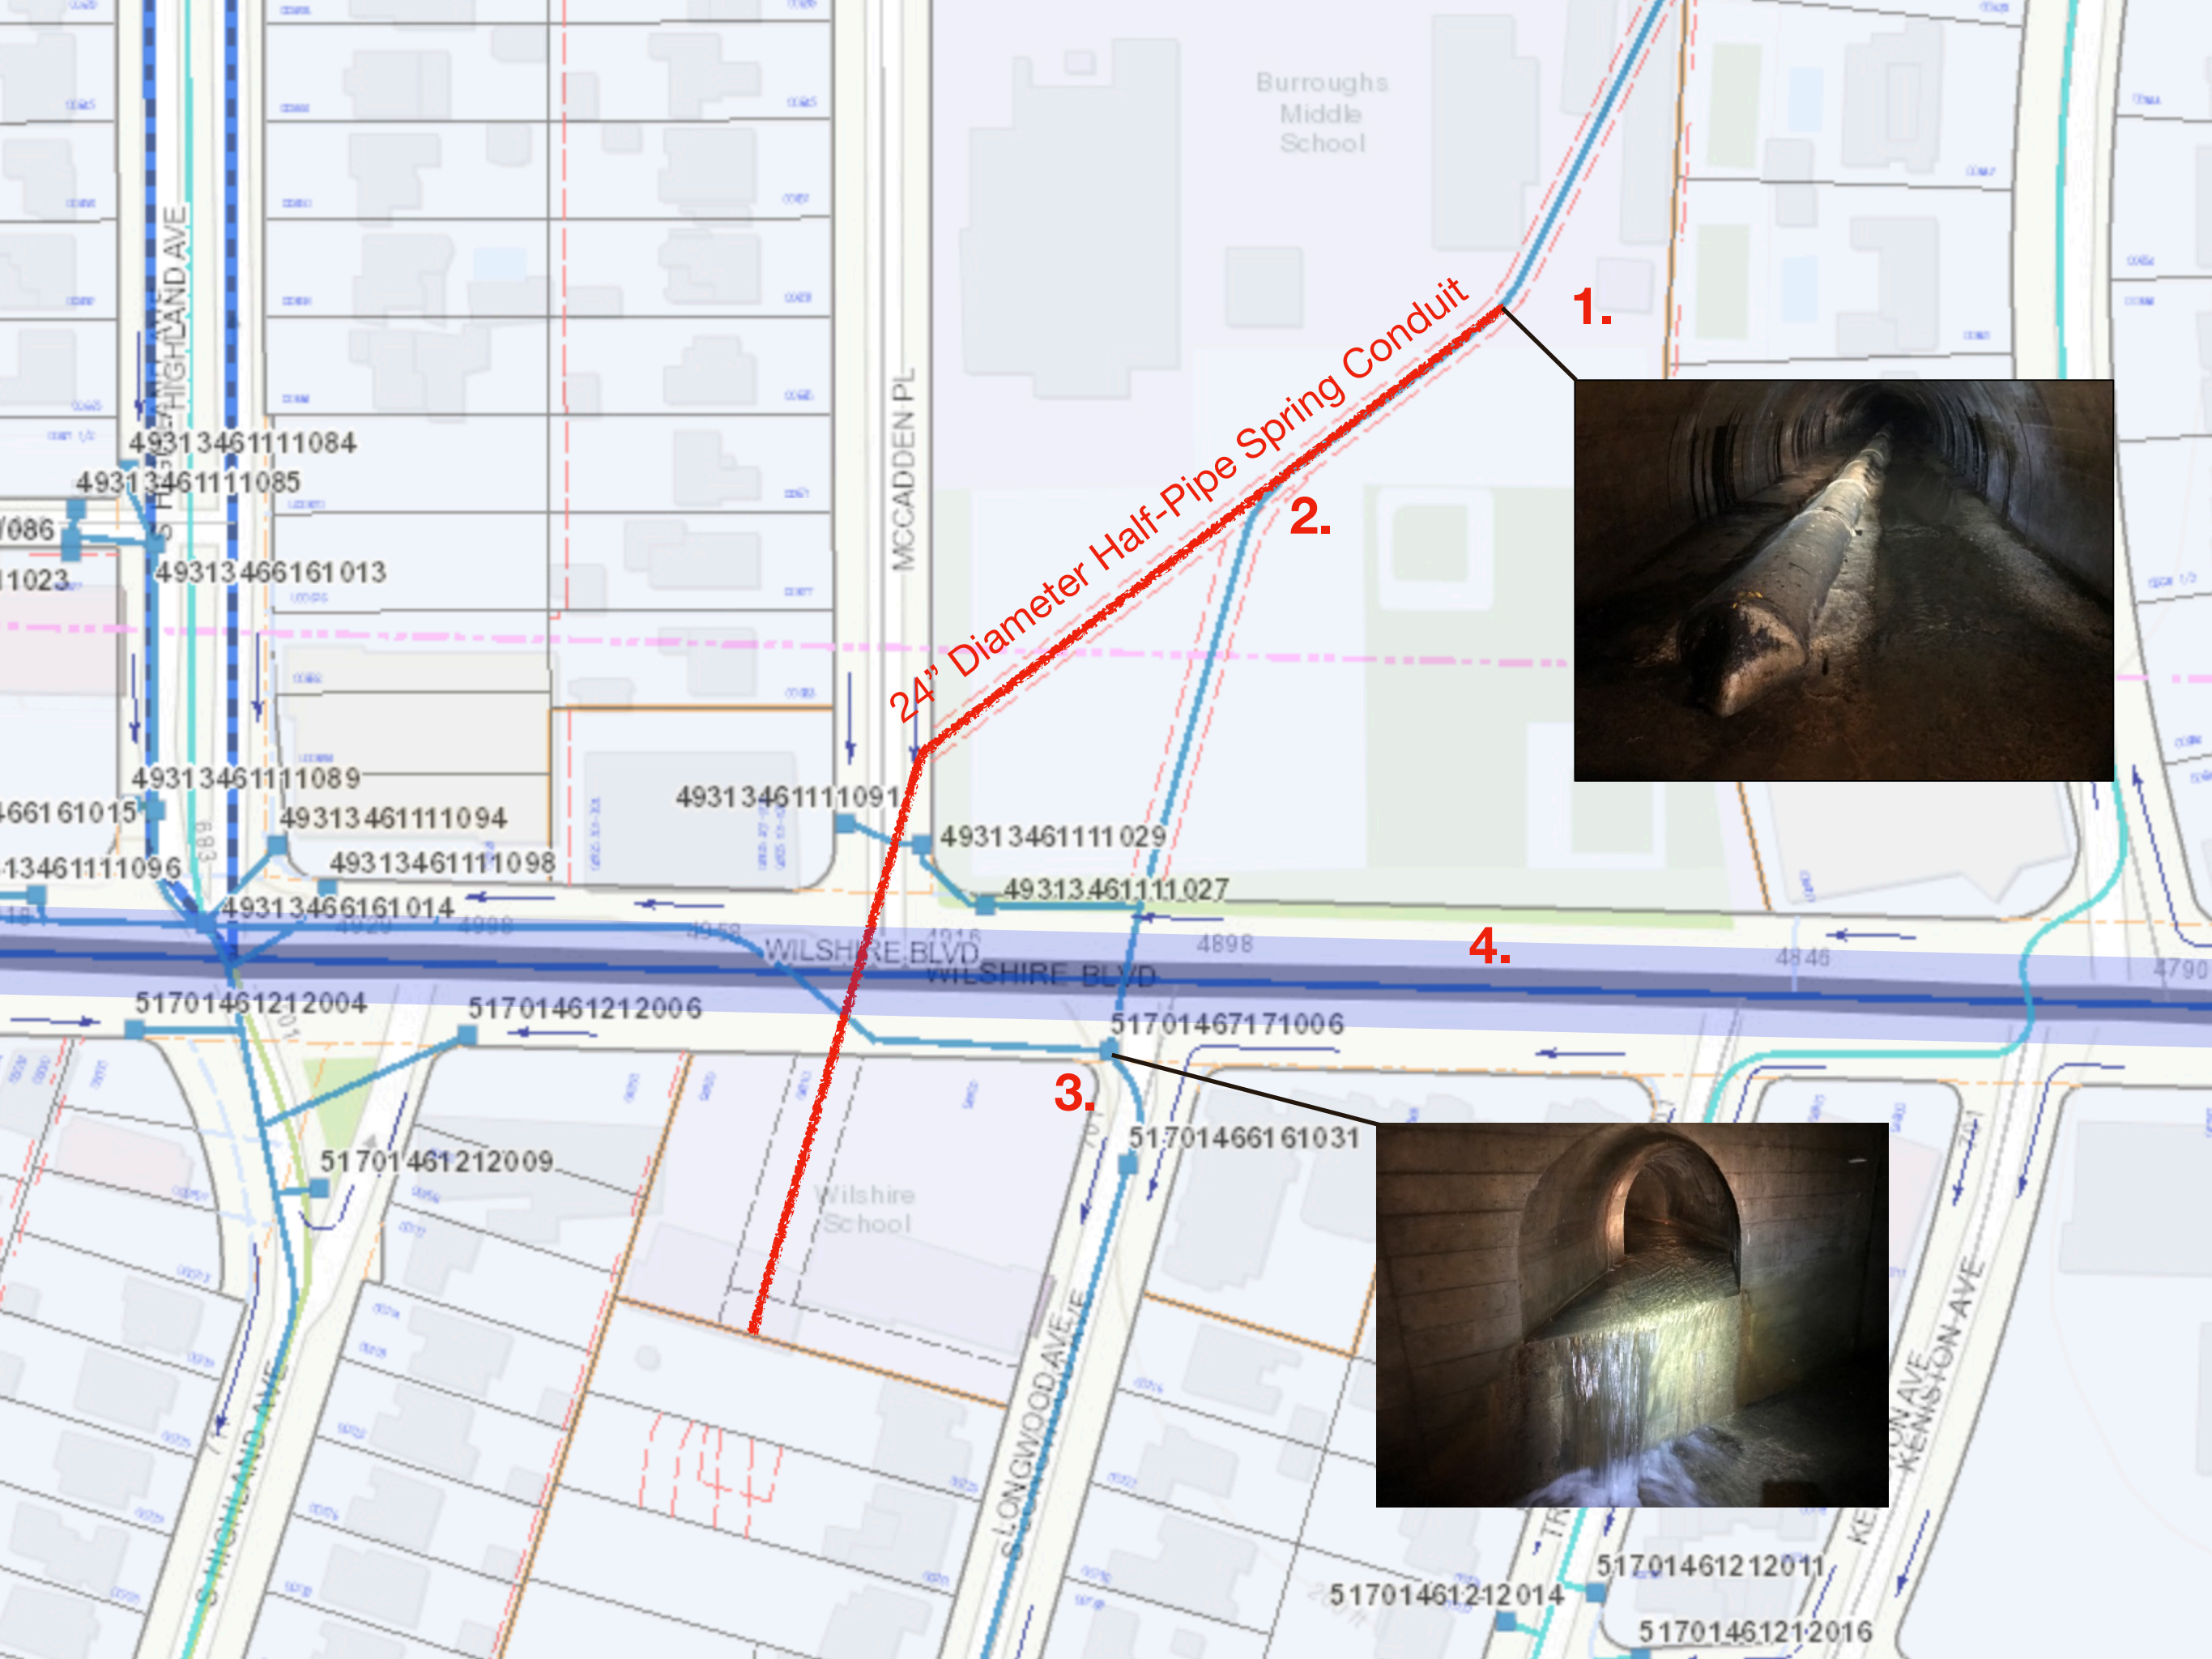

- New information
- Discuss findings/interpretations

## III. Going Forward:

- California Water Board: Get in touch with Gensen's recommendation to contact Metro
  - This is who the contact is: Ned Racine <https://www.linkedin.com/in/nedracine> (Prepare similar email to the one we sent to Gensen)
- How much water is being dewatered?
- In how many places?
- Where are those places?
- Invite Hubertus as a friend?
- Get report #4
- Keep calling and follow-up
- Get in touch with Huub's replacement Alfredo Magallanes, since he is the supposed successor
- Present to CD4 and 10 (after getting report #4)?
- Does anyone have any relationships at the city and can we get a feel of what's going on with LA Sanitation's Watershed Protection program (why are they so slow?)

## IV. Misc.:

- Health concerns from the mosquitoes
- Suspend stream visits for now?
- Other

24" Diameter Half-Pipe Spring Conduit

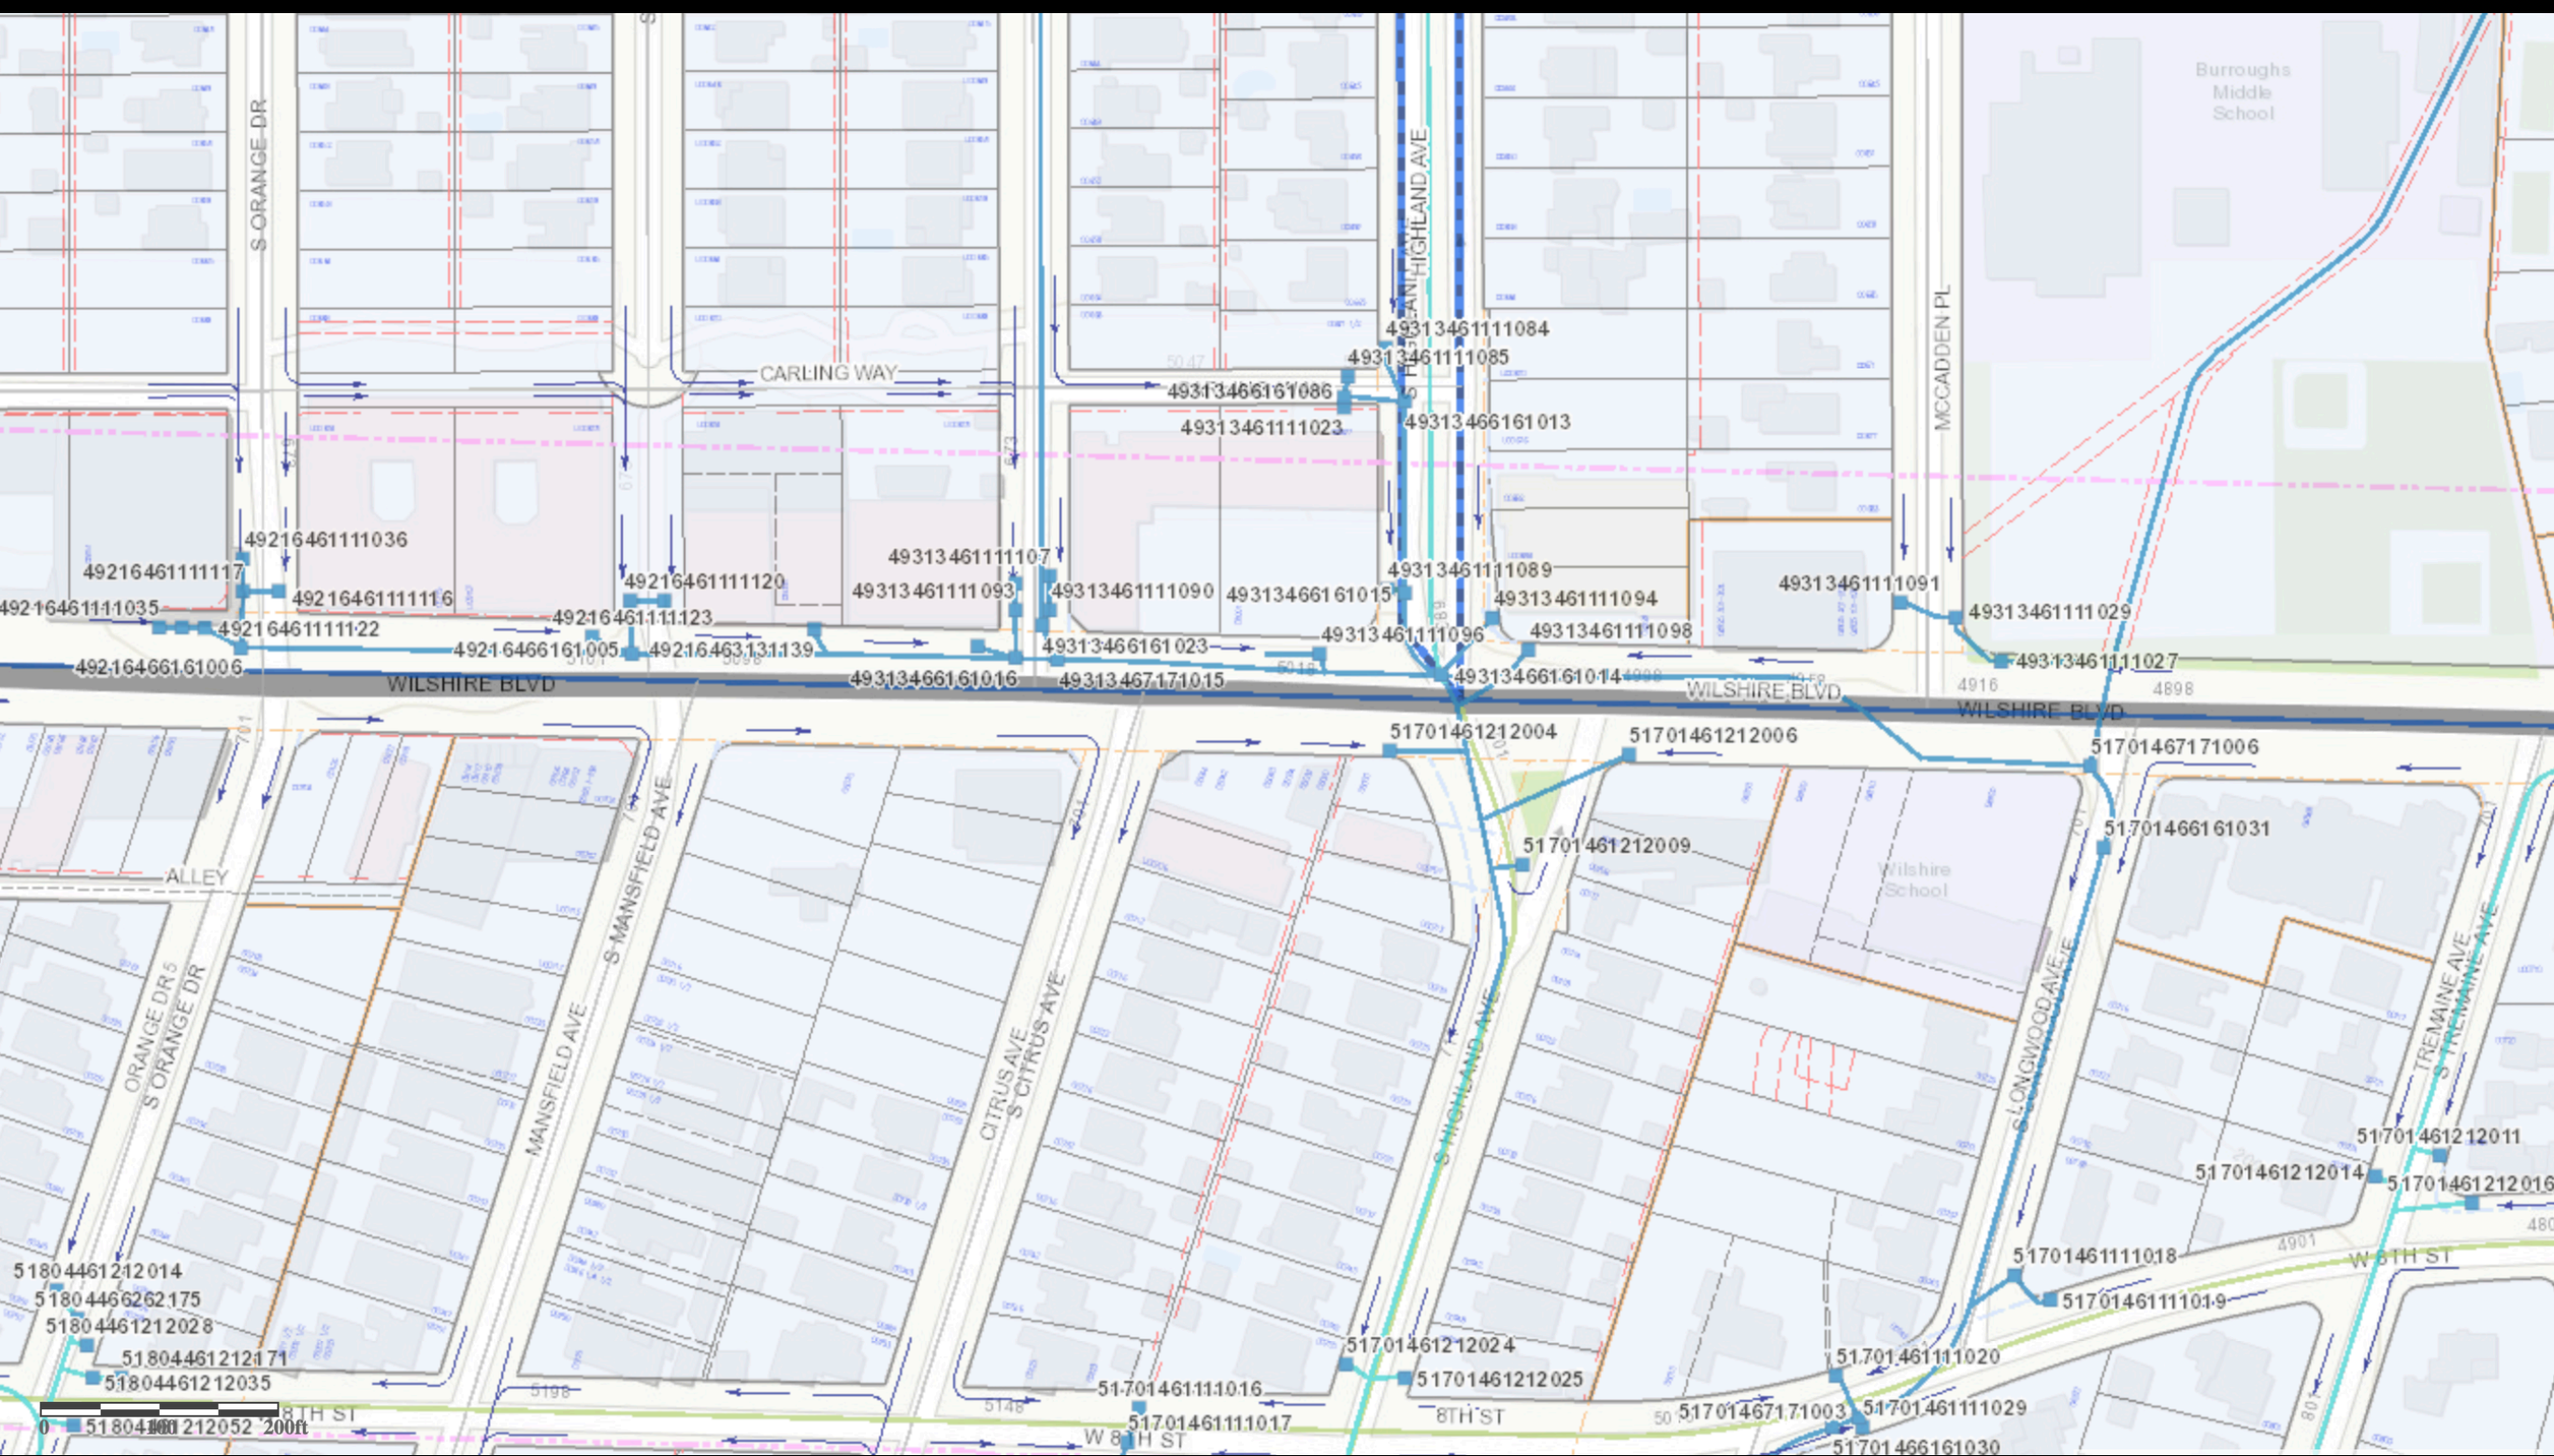

1.

2.

4.
